_____	)	

At the November 18, 2022 meeting of the Michigan Public Service Commission in Lansing,
Michigan.

PRESENT: Hon. Tremaine L. Phillips, Commissioner
Hon. Katherine L. Peretick, Commissioner

ORDER

The Commission commenced this proceeding on January 11, 2010, in order to implement the provisions of Public Act 182 of 2009 (Act 182), which amended Section 310 of the Michigan Telecommunications Act, Public Act 179 of 1991, MCL 484.2101 *et seq.*, MCL 484.2310. The amendment reformed toll access service rates in Michigan. MCL 484.2310(1), (2).

As noted in previous orders in this docket, Act 182 requires that the Commission administer a fund known as the intrastate switched toll access rate restructuring mechanism (restructuring mechanism). MCL 484.2310(9), 484.2310(23)(e). The restructuring mechanism was used to provide monthly disbursements to eligible providers "in order to recover the lost intrastate switched toll access service revenues resulting from rate reductions under [MCL 484.2310(2)]." MCL 484.2310(8). The restructuring mechanism was funded via "a mandatory monthly contribution by all providers of retail intrastate telecommunications services and all providers of commercial mobile service." MCL 484.2310(12). Act 182 entitles each eligible provider "to

receive monthly disbursements from the restructuring mechanism for a period of no more than 12 years” and states that at the end of that 12-year period “the restructuring mechanism shall cease to exist.” MCL 484.2310(16). Pursuant to Act 182, after collecting data from telecommunications providers and calculating the initial size of the restructuring mechanism based on that data, as well as reviewing comments from interested parties, the restructuring mechanism was established and the Commission issued an order in this docket on August 10, 2010, setting the timeframe for it. Per that order, the restructuring mechanism began operation on September 13, 2010, with the initial contributions from providers due on or before that date. Initial disbursements to eligible providers were set for the week of October 25, 2010, with subsequent disbursements being in the final week of each month. Since that time, the Commission has administered the fund and issued orders to adjust the contribution percentage as needed. The Commission also collected data and recalculated the fund size in 2018 pursuant to Act 182, as amended by Public Act 52 of 2014.

As required by Act 182, after 12 years of operation the restructuring mechanism has ceased to exist. Based on the dates established in the August 10, 2010, order, the final contributions and revenue submissions from providers of retail intrastate telecommunications services and providers of commercial mobile voice services were due on August 13, 2022, and the final disbursements to eligible providers were to be made the last week of September 2022. According to Telecommunications Division Staff (Staff), all appropriate revenue submissions and contributions have been completed by contributing providers and the final disbursements to the 38 eligible telecommunications providers were made in late September 2022 as required. Therefore, as of the end of September 2022 the restructuring mechanism has ended. During the 12 years that the restructuring mechanism was in operation there were 240 monthly providers, on average, and they contributed a total of approximately \$162 million to the restructuring mechanism. Of that amount,

\$157 million has been disbursed to the 38 eligible telecommunications providers to help recover intrastate switched access revenues that were lost due to the access charge reforms mandated by Act 182. The remainder of the funds collected from contributing providers went to the administration of the restructuring mechanism itself, as permitted under Act 182.

The Staff has worked with the Department of Licensing and Regulatory Affairs – Cashiering and the Department of Treasury to ensure the proper and complete closing of the restructuring mechanism fund. All money associated with the fund has been used specifically for the restructuring mechanism purposes, pursuant to Act 182. Lastly, the Commission will issue its final restructuring mechanism report to the Governor and Legislature by December 1, 2022. More information on the activities of the restructuring mechanism can be found in that report and in the previous years’ reports to the Governor and Legislature which are available on the Commission’s website.¹

This docket has been the primary docket for restructuring mechanism filings and orders for its 12 years of operation. Now that the restructuring mechanism has concluded and no further filings are anticipated, the Commission finds that it is appropriate to close this docket. The Commission also reminds contributing providers and their agents and consultants that they are no longer required to provide monthly revenue reporting information to the Staff.

THEREFORE, IT IS ORDERED that the docket in Case No. U-16183 is closed.

The Commission reserves jurisdiction and may issue further orders as necessary.

¹ See, <https://www.michigan.gov/mpsc/regulatory/telecommunications/reports/arm-report> (accessed November 1, 2022).

Any party desiring to appeal this order must do so by the filing of a claim of appeal in the Michigan Court of Appeals within 30 days of the issuance of this order, under MCL 484.2203(12). To comply with the Michigan Rules of Court's requirement to notify the Commission of an appeal, appellants shall send required notices to both the Commission's Executive Secretary and to the Commission's Legal Counsel. Electronic notifications should be sent to the Executive Secretary at mpscdockets@michigan.gov and to the Michigan Department of Attorney General - Public Service Division at pungpl@michigan.gov. In lieu of electronic submissions, paper copies of such notifications may be sent to the Executive Secretary and the Attorney General - Public Service Division at 7109 W. Saginaw Hwy., Lansing, MI 48917.
