Case No. U-21227

At the March 12, 2026 meeting of the Michigan Public Service Commission in Lansing,  
Michigan.

PRESENT: Hon. Daniel C. Scripps, Chair  
Hon. Katherine L. Peretick, Commissioner  
Hon. Shaquila Myers, Commissioner

**ORDER**

On November 15, 2021, President Joseph R. Biden, Jr., signed into law the federal  
Infrastructure Investment and Jobs Act of 2021 (IIJA), PL 117–58, 135 Stat 429. Among other  
things, the IIJA intended to provide approximately \$550 billion in federal funding for  
infrastructure improvements including public utility infrastructure such as generation, clean energy

transmission and deployment, electric vehicle (EV) infrastructure, grid reliability and resilience, energy efficiency, and cyber security.

On March 1, 2022, the Commission received a request from the Michigan Attorney General Dana Nessel and the Citizens Utility Board of Michigan (CUB) requesting that the Commission issue an order asking utilities and interested persons to file comments on available federal programs as they pertain to Michigan's regulated utilities. In its review of the IIJA, the Commission agreed with Attorney General Nessel and CUB that there are numerous opportunities available under the federal legislation for Michigan energy providers to take advantage of in their efforts to improve utility infrastructure that will in turn benefit ratepayers and the public interest as a whole.

On May 12, 2022, the Commission issued an order in the instant docket (May 12 order) expressing its interest in ensuring that the opportunities provided in the IIJA are realized and the benefits of this federal funding are maximized for utility customers in Michigan. As such, the Commission requested comments from the above-captioned rate-regulated utilities describing how they were considering and taking advantage of the various grants, loan programs, funds, and assistance available under the IIJA. The Commission invited other interested persons to file comments on opportunities available under the IIJA as well.

Comments were filed in response to the May 12 order and were summarized by the Commission in its August 23, 2022 order in the present case (August 23 order). In the August 23 order, the Commission directed each rate-regulated utility to provide an update on its efforts to obtain funding assistance under the IIJA in the docket for this case on a biannual basis. The Commission instructed that the first update should be filed no later than December 31, 2022; the second update should be filed no later than June 30, 2023; and biannual updates should be filed by

December 31 and June 30 of every year thereafter until all applicable funding opportunities under the IIJA are closed to applications. *See*, August 23 order, pp. 17-18, 23-24.

In accordance with the August 23 order, the Commission received biannual reports from Consumers Energy Company; Northern States Power Company, a Wisconsin Corporation; SEMCO Energy Gas Company; DTE Electric Company; Upper Peninsula Power Company; Alpena Power Company; Indiana Michigan Power Company; Detroit Thermal, LLC; DTE Gas Company; and Upper Michigan Energy Resources Corporation and Michigan Gas Utilities Corporation, jointly.

The Commission issued a subsequent order on February 23, 2023 in this docket (February 23 order) that included a brief summary of the utility biannual filings and expanded the reporting to include additional details regarding the status of prior requests along with new requests to include federal funding opportunities under the federal Inflation Reduction Act (IRA), PL 117-169, 136 Stat 1818; invited the transmission companies (American Transmission Company LLC; American Electric Power Corporation; Wolverine Power Supply Cooperative, Inc.; Xcel Energy Services Inc.; and the two subsidiaries of ITC Holdings Corp.: Michigan Electric Transmission Company, LLC, and International Transmission Company) to file biannual updates in the same docket; and added that utilities may file requests for approval of pilot programs, accounting treatment or other similar requests related to federal funding and that the Commission would “utilize best efforts to make a determination on any such request within 90 days from the date of the filing.” February 23 order, pp. 21-22.

On January 20, 2025, President Donald J. Trump issued an executive order, Unleashing American Energy, which resulted in the suspension and cancellation of many funding opportunities that were previously available under the IIJA and IRA. 90 FR 8353. However,

many of the funding programs initiated by the previous administration that had already been executed or consisted of formula funding, including some of the Grid Resilience and Innovation Partnership (GRIP) grants, were continued. While many of the previous opportunities were paused or cancelled, new opportunities aligned with the priorities of the current federal administration are being made available. Notable opportunities include the Energy Dominance Financing Program (EDFP), which provides loan guarantees to certain projects that add energy to the grid or enhance reliability.<sup>1</sup> Through February 25, 2026, the EDFP has issued \$29.1 billion in loan guarantees for energy resources and infrastructure including utility grid investments and nuclear energy. Additionally, through a Partnership Intermediary Agreement with the United States Department of Energy, ENERGYWERX<sup>2</sup> has an opportunity open entitled the iCRS-D – i2X Interconnection Cost Reduction Solutions for Distribution-Interconnection Innovation e-Xchange Program to fund projects that implement process and technology solutions in the distribution system that aim to improve interconnection timelines and costs by maximizing economic efficiency, increasing data access and transparency, or by streamlining and expediting interconnection services. This opportunity closes on April 16, 2026.

ENERGYWERX also has a similar opportunity for improving interconnection to the transmission grid, i2X Interconnection Cost Reduction Solutions for Transmission Voucher Program<sup>3</sup> which aims to support innovations to streamline and expedite interconnection services

<sup>2</sup> <https://www.energywerx.org/> (last accessed March 4, 2026).

<sup>3</sup> <https://www.energywerx.org/opportunities/voucher-opportunity-11-provider-i2x-interconnection-cost-reduction-solutions-for-transmission-icrs-t-voucher-program> (last accessed March 4, 2026.)

by implementing cutting-edge technology solutions, such as grid-enhancing technologies, flexible interconnection, and other innovations. This opportunity closes on April 2, 2026.

The Commission expects that more opportunities will be made available in time.

### Discussion

The Commission thanks the rate-regulated utilities for providing insight into actions taken in response to the IIJA legislation and recognizes the time and efforts of the companies in conducting their own review and analyses as demonstrated in the biannual reports.

The Commission continues to see value in pursuing available federal grants and loans that will reduce costs for Michigan ratepayers, improve upon affordability, and encourage the utilities to pursue opportunities that are aligned with state law, including the clean energy plan, the statewide storage target, and distribution system and integrated resource plans. To that end, utilities should continue filing biannual reports and include all federal funding opportunities that they are pursuing, in order to maximize value for Michigan customers.

THEREFORE, IT IS ORDERED that:

A. The instant docket, Case No. U-21227, shall remain open as a repository to allow for filings from the above-captioned rate-regulated utilities and other interested persons to update the Commission on actions taken relevant to obtaining funding or assistance opportunities pursuant to the federal Infrastructure Investment Jobs Act of 2021, the federal Inflation Reduction Act of 2022, and new opportunities under the current federal administration. Each rate-regulated utility shall file continue to file in this docket on a biannual basis an update of its efforts.

B. The Commission again encourages each of the named transmission companies within this order to file in this docket on a biannual basis an update of their continued efforts relating to

actions taken to obtain funding or assistance opportunities pursuant to the federal Infrastructure Investment and Jobs Act of 2021, the federal Inflation Reduction Act of 2022, and opportunities under the current federal administration.

The Commission reserves jurisdiction and may issue further orders as necessary.

Any party desiring to appeal this order must do so in the appropriate court within 30 days after issuance and notice of this order, pursuant to MCL 462.26. To comply with the Michigan Rules of Court's requirement to notify the Commission of an appeal, appellants shall send required notices to both the Commission's Executive Secretary and to the Commission's Legal Counsel.

Electronic notifications should be sent to the Executive Secretary at [LARA-MPSC-Edockets@michigan.gov](mailto:LARA-MPSC-Edockets@michigan.gov) and to the Michigan Department of Attorney General - Public Service Division at [sheacl@michigan.gov](mailto:sheacl@michigan.gov). In lieu of electronic submissions, paper copies of such notifications may be sent to the Executive Secretary and the Attorney General - Public Service Division at 7109 W. Saginaw Hwy., Lansing, MI 48917.
